Frameworks: React
Responsive design
Back-end: PHP, Nodejs
Databases: MySQL, MongoDB
Version control: Git
UI/UX design

EXPERIENCE

Web Developer Intern
Gainn Fintech Pvt. Ltd

Jan 2023 – June 2023

As a Web Developer intern, I have successfully designed a CRM (Customer Relationship Management) system for the organization. Additionally, I developed a WhatsApp bot to enhance communication and automate processes. In addition, I have gained experience working with REST APIs, effectively integrating external services and data into web applications.

EDUCATION

MET ICS Mumbai

2021-2023

Masters in Computer Application

SGBAU Amravati

2018-2021

Bachelor of Computer Application

Full-Stack Web Developer Intern
Insistence Technologies Pvt. Ltd

Jan 2021- June 2021

During my graduation internship, I worked on two significant projects: A Car Rental System and an E-commerce System. For the Car Rental System, I developed a user-friendly platform with advanced features like real-time vehicle tracking. In the E-commerce System, I created an intuitive interface with personalized recommendations and efficient order processing. These experiences honed my skills in system development, database management, and secure payment integration.

PROJECTS

- WhatsApp Bot
- Telegram Bot
- Ecommerce Website
- Warehouse Stock Inventory
